**Call Before You Dig.**  
It could be a life saver.

Every time you dig in the ground you run the risk of loss of life or damage to property if you hit any of the many buried cables, conduits, gas or oil pipelines and other under-ground facilities that serve BC communities.

With one call to **BC One Call** contractors and homeowners can request the identification of buried services on their jobsite prior to any excavation, digging, or ground disturbance. And all this at no cost to you!
